

Odious Sanction "Force Fed Hatred"

Visit "[Force Fed Hatred](#)" on MotoLyrics.com

Everyday I see madness
Agonizing anger - crushing pain
Shovels full of sick hatred
Crushing all of the weaker ones
Insane mass of the burning
Devouring this world of hell

Strapped in life's hell
The tension of death thick in the air
Relentless beatings from this life
Stabbed to death by a knife

Don't give in to the pain of this life
Or it will eat your weakened soul alive

So you think you've seen it all
You can't begin to understand
All the misery life has
Force fed all this hatred
