i feel like i'm god  
cuz that's who i am  
stand up to me and i'll take your life  
there's work to be done  
cuz you are my slave  
whatever i say you will do it for me  
watch what you think  
watch what you say  
your mind is mine it is my property  
feel guilty about the things that you do  
get up on the cross, haha i tricked that man!  
dare you to sin, to live your own life  
speak for yourself, well i do not think so  
brainwashing your mind so easily  
putting the words right into your mouth  
molesting the children, is okay with me  
repent your sins and i will grant your wish  
for all of you fuckers, abusing me  
i hate you all, i am not real
