"He Will"

I can't hold on any longer
Temptation keeps getting stronger
And when I'm about to fall
And I've given it my all

Chorus
He will move mountains
He will work miracles
I have no doubt that
He will not let me go
His arms are open still
And when I can't I know He will

Sometimes it's all I can handle
To stay ahead of the battle
And when I'm not strong enough
His love will lift me up and

Repeat Chorus

Speak peace to my soul
And I'll trust His love to guide me home
Cause I know I can't make it on my own

Repeat Chorus
