Baby girl don't fear those demons
Baby girl don't fear those demons
Baby girl don't fear those demons

Baby girl why'd you make me wait so long
It took me 18 years just to write you this song
Things in this life and of all the things I did for you
I'm sorry for my mistakes and all the pain I put you
through
If jealousy and anger are the feelings that you feel
And you tell 'em baby girl that those feelings are for
real
They wanna give you reasons (baby) to think twice
about my love
It's cause they lonely and jealous and they envy just
because
They don't have what you got and want it so bad that
they steal
So I promise baby girl all the pain and all thoughts are
real
'Fraid of all the demons and get and softly seal them
off
From your entire world, get to find out what is real
Yeah yeah...

Baby girl don't fear those demons
Baby girl don't fear those demons

Girl I need you with me, I need you by me
Not a thing I wanna go through without you beside me
If I'm never alone, and I need a friend
All I gotta do is call you and it's time we spend
Yeah it's always good when you do things right
Like when you kiss me on my forehead and you hold
me tight
Like when you look into my eyes and tell me it's alright
Drive me away from all my demons tuck me in at night
Cause I tell you I'm in love, you tell me that I'm wrong
But even through all the pain you had every time that I
was gone
Yeah every single day and every single night

You think about me all the time and every time you'd
like
You wish they could be there, and I wish I could be too
But even if I was I don't know what to do
Cause I don't wanna lie, or even tell the truth
The truth is just too hard to say especially to you

Baby girl don't fear those demons
Baby girl don't fear those demons
