Back in the day when nobody can play me  
No nothing can phase me sit around and be lazy  
Now I'm falling through the cracks when I don't have  
my lady yeah

Didn't wanna grow up didn't wanna become  
A working class man wanna play in the sun  
Wanna get by maybe get a little high  
My main priority is just to have a good time  
Got my lady by my side she lookin so fine  
Even finer with every glass of patron and lime

Cuz it's been awhile since the last time I smiled  
And I'm waiting for the next good time  
And I'm not a child but I'm a little wild  
And I'm waiting for the next good time
