Surrender

(verse)

Missed opportunities
and second chances
When we hold back
we don't react
to why Your calling us
It's time to make a change
so lets do something
It's why were here
You're the cure for this complacency

(chorus)

i wanna faith that is stronger than the ocean tide
i wanna give my whole life to the one who
traded all His crowns
Let this broken life be found
I surrender

(verse)

The opposite of love
is our selfishness
It takes away
It turns grace into bitterness
It's like the dead of night
cold and hopeless
If we turn
we'll find the Truth, and see the Light in us

(bridge)

Let these walls come down
Let your spirit out
You can have it all
Would You take me now
