Chorus:

I feel like I'm losing my mind
Like I'm all out of time
I'm not crazy but I've never had these feelings before
(four) Now I got this nine on my side
And there's no where to hide
I had to catch myself because drama always happens
in fours

Four lives four times,
I've got four tries for I
Go to losing my mind!
Losing foresight I'm blind
Right before I grab nine,
I need four straws four lines
So that's four shots four crimes,
I'm running out of time!

Bridge:

Let me position 'em out I'm taking four spots
Hundred Yards Hundred feet so that's four blocks
One top four pops that's a four stop
Four glocks 12 shots meaning four drops
Time stopped now all I'm seeing is four cops
I'm shocked so all that's waiting is four watts
Tied down electrical I'm in four knots
Before I leave there's something I might have forgot

Chorus:

I feel like I'm losing my mind
Like I'm all out of time
I'm not crazy but I've never had these feelings before
(four) Now I got this nine on my side
And there's no where to hide
I had to catch myself because drama always happens
in fours

Four lies four guys,
I've hurt four times that's why
I cried for nights four nights!
Meaning four sighs four whys
Right before I grab nine,

I need four lights four highs
So that's four shots four crimes,
I'm running out of time!

Bridge:

Let me position 'em out I'm taking four spots
Hundred Yards Hundred feet so that's four blocks
One top four pops that's a four stop
Four glocks 12 shots meaning four drops
Time stopped now all I'm seeing is four cops
I'm shocked so all that's waiting is four watts
Tied down electrical I'm in four knots
Before I leave there's something I might have forgot

Chorus:

I feel like I'm losing my mind
Like I'm all out of time
I'm not crazy but I've never had these feelings before
(four) Now I got this nine on my side
And there's no where to hide
I had to catch myself because drama always happens
in fours
