Hang on, hang on for love, hang on for love 'til forever
Hang on, hang on for love, hang on for love 'til forever
And you'll be glad
Hang on, hang on for love, hang on for love 'til forever
Hold out, hold out for love, hold out for love 'til forever
And you will see love is stronger
And you will see love is long
And you will see love is stronger
And you will love so long
Hang on, hang on for love, hang on for love 'til forever
Hold out, hold out for love, hold out for love 'til forever
And you will see love is stronger
And you will see love is long
And you will see love is stronger
And you will love so long
Hang on, hang on forever, hang on, hang on for love
Hang on, hang on forever, hang on, hang on for love
(guitar solo)
Hang on, hang on forever, hang on, hang on for love
Hang on, hang on forever, hang on, hang on for love
And you will see love is stronger
And you will see love is long
And you will see love is stronger
And you will love so long
Hang on, hang on forever, hang on, hang on for love
Hang on, hang on forever, hang on, hang on for love
