Are you with me tonight?
Can You take the pressure?
Are you ready to move?
Are you ready to groove?

Sound with the power, past the midnight hour.
There's no going back! Full on attack!
For ever and ever, ever and ever, ever and ever full
force!

Are you with me tonight?
Can You take the pressure?
Are you ready to move?
Are you ready to groove?

A nation from the underground. Moving from the
shadows into the strata.
Can you hear the sound? It's the New Direction. It's the
TTC. It's for you and me!

Oh... [Sound with the power, past the midnight hour.
There's no going back! Full on attack!
For ever and ever, ever and ever, ever and ever full
force!]
