I am nothing if not a show horse and I will move to
display my wares
and I will move to show you what I've got
Fling my head back fling my head back and buck and
kick
Now work it
See me arch my back as I pull my lips in a sneer
As foam spits forth from here As foam spits forth from
here
And pelted...and pelted by some others
And you'll send me to the factory when you tire of me
when you no longer love me when you no longer love
me
And I will laugh with eyes wide
Now work it
See me flail my tail and toss my head As sweat drips
off my neck
Show horse now, more than ever
Use my bones to stick your pages together
A torso, a torso, a twisted torso
Muscular sculpture and nothing more
so I will fling my head back fling my head back and
buck and kick
