Well I've been here before
Breaking down the door
To everything I knew
Breath a count to 10
I know exactly when and
What you're gonna do

Well I thought that I could see,
Into the future foolish me

If you were a book I've read it
If you were a word I've said it
If you were a song I've sung it
For all that you are I've done it
If you are a dream I've dreamt it
This letter I write I've sent it
I know anything and everything about you
Living here trapped in this dÃ©jÃ vu

Well I've been here before
Some how I am sure
That everything you do
You did it yesterday
In some other way you
Carbon copy you

Well I, I thought that I could see,
Into the future foolish me

[Chorus:]

I cant believe that I'm trapped here with you
Its like dÃ©jÃ vu your voodoo is taboo
You're too much stress for me, compressin me
Ha! You can't get the best of me
So why do I stop why do I go
So why is my temptation spun out of control
Don't sit there and act like you know me
You owe me phony this is the end of our psychotic story
LEAVE I don't know why I'm here
Me and its never been clear
Yesterday, today and tomorrow its all the same

Just leave me
ALONE

Well I, I thought that I could see,
Into the future foolish me

If you were a book I've read it
If you were a word I've said it
If you were a song I've sung it
For all that you are I've done it
If you are a dream I've dreamt it
This letter I write I've sent it
I know anything and everything about you
Living here trapped in this dÂ©jÂ vu
