

Off By One "Need"

Visit "[Need](#)" on MotoLyrics.com

Every time I ask you out you tell me maybe next time
Could it be my bad breath or something of that kind
You keep stringing me along like I am just a fool and
I need to know I need to know

[Chorus:]

Cause I, I need your love, I need your love, I need your
love
I need you close to me at night and I
I need your love, I need your love, I need your love

If you don't want me to be your man I understand

Please tell me so
You keep stringing me along like I am just a fool and
I need to know I need to know

[Chorus:]

I need I need to need to know where know where I
stand
Don't leave me standing here with you know what in my
hand
I need I need to need to show you what I got here
I maybe laughing but you know that I am sincere
