"Moths In Light"

Visit "[Moths In Light](#)" on MotoLyrics.com

This fascination is our fixation
Light surrounds us
Illuminating intoxicating
Light that binds us

Are we meant for this?

This is our obsession
It burns so bright
We are bound and mesmerized
Like moths in light

So narcissistic
It's like a death wish
Life on the inside
It seems so hopeless to keep your focus
Just like a moth in light

Are we meant for this?

This is our obsession
It burns so bright
We are bound and mesmerized
Like moths in light

This is our obsession
It burns so bright
We are bound and memorized
Like moths in light
