Open up this door
Look down these winding stairs
It's dark so dark
So I'll go in alone
I'll find out on my own
In need of light

This is my endless ending
With our forgotten blessings
It's too late..

Take these eyes and realize
There's nothing you can do to make this right
Take these eyes and realize
There's nothing you can do to make this right

Another windows broken, another perfect stolen
Heart a heart
My morbid shadow haunts me, your words always taunt
me
At night, at night
Is this right? it keeps me up at night
For hours...

Take these eyes and realize
There's nothing you can do to make this right
Take these eyes and realize
There's nothing you can do to make this right

This guilt we carry on our backs
always keeps us down
If we look back into the past
We will drown

Take these eyes and realize
there's nothing you can do to make this right

Take these eyes and realize
There's nothing you can do to make this right

Take these eyes and realize
there's nothing you can do to make this right

Take these eyes and realize
There's nothing you can do to make this right
Take these eyes and realize
There's nothing you can do to make this right
