I'm gonna change this path that leads me back to you  
I'm gonna change my mind that alters things I do

If you're happy I'll be happy  
If You're lonely I'll be lonely without you  
If ya find that darkness comes  
I'll be waiting in the sun to lead you through

And I know sometimes it's hard to say goodbye  
when things are going great  
And I know sometimes it seems as though  
happiness can come and go

I'm gonna make this right and tell you what you have  
done  
And I'm gonna make you realize the bitch that you've  
become

If you're happy I'll be happy  
If You're lonely I'll be lonely without you  
If ya find that darkness comes  
I'll be waiting in the sun to lead you through

And I know sometimes it's hard to say goodbye  
when things are going great  
And I know sometimes it seems as though  
happiness can come and go
