(Verse 1)

Since a kid ive been dreaming about this moment  
From the rain I turn to rust but on the inside I stay  
golden  
Cause I know when I get the chance, ill never miss it  
The top is where im headed and thats not just for a visit  
I planned it out and I did it They hated and they was  
vicious  
But who knew they bout to witness the underdog bite  
the biggest  
And you can keep your fame, your money, power and  
riches  
Because my lifes become a gift And every days turned  
into Christmas  
And never will I stop or give this up till the clock runs up  
Find me muddy like ducks never need brakes fuck the  
Midas Touch  
Will show no signs of slowin' up no not us  
We work too hard and got too far to ever fail  
We the kids that ain't believing who found reason to  
prevail

(Chorus)

Never thought that we would do it but tell em look at us  
now  
Wake up every morning and all I can do is smile  
This is what it feels like brought my dreams to real life  
Finally get to live the life we always wanted every day  
And im thankful for anybody whose on my side  
Just a West Virginia kid but we goin worldwide  
Oh we built it from the ground up now they all surround  
us  
They gon' think success every time they think about us

(Verse 2)

Always been an average kid time for me to stand out  
Regardless of all the critics I never had a hand out  
The day my father left my mom said "time to be the  
man now"

So no matter what they bring I won't stand down  
I learned to do it on my own so fuck who saying  
different  
They never gon' bend or break me they can't cause im  
too resilient  
All it took was a lot of luck with a little dab of brilliance  
An orthodoxies who was you can tell im making a killing  
So fuck ya feelings and hatred and jealousy make shit  
up have it out for me  
But I dare you to talk to me after years of you doubting  
me  
You'll see how great im bout to be and I introduce you  
to karma  
Im Vinny Chase in my dreams and you looking like  
Johnny Drama  
Still got my back to the wall but ill take my option to hop  
it  
I got the heart of a giant thats why you look like a  
hobbit  
No pun intended but my apologies for that low blow  
You Frodo's ain't noticed I ain't no Joe Shmoe

(Chorus)

Never thought that we would do it but tell em look at us  
now  
Wake up every morning and all I can do is smile  
This is what it feels like brought my dreams to real life  
Finally get to live the life we wanted every day  
And im thankful for anybody whose on my side  
Just a West Virginia kid but we goin worldwide  
Oh we built it from the ground up now they all surround  
us  
They gon' think success every time they think about us

(Verse 3)

They never thought we could do it but look at where we  
at  
Im thankful for anybody who ever had my back  
Back when I ain't had a single thing to my name but a  
dream  
Ain't nobody that help me runnin on pride and self-  
esteem  
Im from a small town but that dont mean that we can  
make it all work  
I swear that I won't be down and out no matter how bad  
im hurt  
And for what its worth, no matter how far I go  
Just know that my heart ain't ever gonna leave them  
country roads

(Chorus)

Never thought that we would do it but tell em look at us  
now

Wake up every morning and all I can do is smile

This is what it feels like brought my dreams to real life

Finally get to live the life we wanted every day

And im thankful for anybody whose on my side

Just a West Virginia kid but we goin worldwide

Oh we built it from the ground up now they all surround  
us

They gon' think success everytime they think about us
