Started with just a vision, look at us now
The rents to all the datass cause my mama she proud
I m from a small town and they don t wanna see me get
out
I ve planted the seed now watch me sprout
Look I m 20 got no money and I m still in school
They treat me like I m a gimmick cause I m not like you
I m just a boy named Hue with a big ass dream
Hoping that everything is closer than the way that it
seems
And I know I ll prolly never be in double XL
But doesn t mean that I ain t never gonna sell
I m doing well on my own terms
Waiting on my turn, sitting back and taking time to
learn
I know better things are coming I just hope they coming
soon
Cause I m sick of being tired and in praying for my
doom
Instead of seeing me bloom they would rather see the
death of me
But it s cool my mom cried the day she saw me on mtv
They told me what we ever do
Now they see us and they tell me that I m proud of you
Everybody used to laugh at you
Ain t it funny how everybody switched up they attitude
And no matter where we go
I will never change, I ma always keep go
You have my back so I just want y all to know
I ll be by your side till the day I m 6 feet below

Until they see you blowing them
Now they just wanna be around you
Hoping they can get a glimpse
Hoping they can shake your hand
I m living on a high and I ll be honest
I don t wanna land
I knew I would be the man
Now I am for real, I started taking it real 2 years ago
No intentions to get a deal
Now I m matchbox 20 they told me how I was done

They wouldn't give me nothing a bread crumb
Well how you feel, it was just a dream a year ago
Now everything is becoming real
Thanks to all the fans, I wouldn't be where I stand
If it wasn't for the people who believed in my plans
And I'm grateful, I can never repay you
Cause you hold me together like a staple
And I know we still got our ways left
But keep on holding me down until the end
And I'll stay with you till my last breath
They told me what we ever do
Now they see us and they tell me that I'm proud of you
Everybody used to laugh at you
Ain't it funny how everybody switched up they attitude
And no matter where we go
I will never change, I'm always keep go
You have my back so I just want y'all to know
I'll be by your side till the day I'm 6 feet below X 2
