[Intro]

We recording?  
And everything is going just great

[Verse 1]

We young and we dumb and we full of ambition  
We stubborn as hell and we never could listen  
Cause nobody said what we wanted to hear  
And now we on top and don't it feel weird?  
It took a couple of years  
But just like we planned we exceeded our peers  
We ditching our fears and making our mark  
So the who the hell are you to say we ain't smart?

They never believe in you  
They shit on everything you do  
But they say they're proud of you  
Like I don't even have clue  
What they used to say  
How they used to feel  
And lil mamas gonna ride me like a wagon wheel  
When they used to say I didn't appeal  
Like change this is all so real  
But it couldn't get better  
When the boys from the sorry  
Live ever, die never  
If you hate it or whatever  
I could really care less  
Gotta a real tight circle  
And I always feel blessed to have yall  
I couldn't have done it without yall  
When I'm up, we gonna all fall  
Cause you were there through the rain fall

[Hook: Missy Modell]

Ohh it's such a beautiful day  
There ain't a damn thing that can get in my way  
They say we dug our own grave  
They used to laugh at you hey  
But now they taking back the jokes they made  
Cause we're finally doing well  
Ohwoah, I feel like everything is going my way

Cause we're finally doing well  
Ohwoah, cause I don't really care what they say

[Verse 2]

Look at me now  
Can't believe I made my momma so proud  
I came from the bottom ain't nothing to show  
And now show every show is sold out crowd  
And life is so great  
Made some mistakes on my last mixtape  
Didn't think I would make it and get used to the fame  
But now everything seems to fall into place  
And it's crazy right?  
Dreamt about this shit my whole fucking life  
Spent too many nights thinking about getting paper  
And having my name up in lights  
But this is more than that  
More than rapping, more than the fame  
I'm proud of the fact that we started from nothing  
And only a year look at how far that we came
