[Hook:]

Higher, come take me higher  
My sweetest joy, you're my love, you're my fall  
(x2)

[Verse 1:]

(Ooh Girl...)  
You do it for the rush right  
Searching for the thrill so you're sniffin up off the desk  
at night  
Shes not the party type she just ain't satisfied with life  
Shes getting high cuz its the only thing she truly likes  
Well baby that's bout to change  
I ain't sayin that I'mma change you  
I'm sayin I feel your pain  
And I know it seems kind of strange  
But I'll be there for you, look I care for you  
But all she really wanna do is get (higher)  
She says she wanna grow wings  
Shes always searching for something she wants to feel  
like a queen  
I asked her about her life she asked me where the  
mattress was  
I can't tell if she's in love with me or if its just the drugs  
When we fuck its amazing my heart it races  
And her heart is racing too cuz she just got a bag and  
faced it  
I said you should take a break from this  
She said hush come over here take a hit baby lets get

[Verse 2:]

(Ooh Girl...)  
Now you just out here poppin' pills  
Spendin daddy's bills 'cus you can't escape from the  
way it feels  
She feels like nothing that's real is even that satisfying  
And when she comes down from that high she's in the  
bathroom crying  
But baby you don't have to do that have to feel this way  
She said lets run away I said baby it's gonna be OK

Just hold off for another day things will get better  
She said the only way they will is if I get her (higher)  
She got a good family but takes it for granted  
And she won't stop til she collapses or the whole room  
slanted  
I told her you don't have to live like this  
She ain't into petty shit she just wants a bong rip  
Or something she could sniff something to give her a  
lift  
I just want to let her go but I get high up off her kiss  
And miss thank you for all of this  
Because your love gets me high without a hit  
Baby take me
