I remember the things I've known
Take it back and fill out a form
Build another now
I'm on my own

Just hopeless
Hopelessly stoned.

Fill my boots up to the sky
Try to find a new supply
Ask me yes, but don't ask why

I'm hopeless
Hopelessly stoned

You're the picture of restraint
You stood aside while I made my play
But anyway I was outta the game

And just hopeless
Hopelessly stoned

One degree is all it takes
To move apart and separate
Level out as I raise the stakes

And just hopeless
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned

Like a bug on my windowpane
Safe inside from the wind and rain
Try to fly but it's all in vain

Just hopeless
Hopelessly stoned

We'll let you in
But I don't want out

I can't get up
If I don't get down
From a whisper to a shout

I'm just hopeless
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned
Hopelessly stoned

Gotta get up
Back up to zero
Gotta get up
Back up to zero
Gotta get up
Back up to zero
Gotta get up
Back up to zero

If I get there
Will you want me?
Cuz there's nothing out there
Waiting for me
If I don't have you

Hopeless
Hopelessly stoned
Gotta get up
Back up to zero
Gotta get up
Back up to zero

Hopelessly stoned
Gotta get up
Back up to zero
Gotta get up
Back up to zero
Hopelessly stoned

If I get there
Will you want me
Cuz there's nothing out there
Waiting for me
If I don't have you
