I check again, you're ignoring me
So its clear you're getting over me
Its too bad, I don't care anymore
If you call I'll turn off my phone
If you see me I won't be alone
This is not a "want-you-back song"
Just want you to know what you did wrong

(chorus)

I'm moving on and moving up Just like I always hoped I
would
I'm pushing on and growing up
The lesson is now understood
Don't you wish that you could see
How high I've flown when I'm alone
Don't you wish that you could be
Up here with me, too bad, you see
I'm moving on and moving up
I'm over you.

When we were one, it was the strangest thing
Falling for a friend, really changes things
Losing you, I thought my heart would break
When I fell, I fell further than the sky
When you were done, I couldn't explain why
Suddenly I couldn't be, the best me with only me
You ruined me, so completely.

Luckily,

(chorus)

I'm moving on and moving up Just like I always hoped I
would
I'm pushing on and growing up
The lesson is now understood
Don't you wish that you could see
How high I've flown when I'm alone
Don't you wish that you could be
Up here with me, too bad, you see
I'm moving on and moving up
I'm over you.

And maybe
If you said sorry
We could be
All we were before

But who am I kidding
You will never see the light
Act like I wasn't crucial
Well the feeling's mutual
And I am done with this fight

(chorus)
I'm moving on and moving up Just like I always hoped I
would
I'm pushing on and growing up
The lesson is now understood
Don't you wish that you could see
How high I've flown when I'm alone
Don't you wish that you could be
Up here with me, too bad, you see
I'm moving on and moving up
I'm over you.

I'm moving on and moving up Just like I always hoped I
would
I'm pushing on and growing up
The lesson is now understood
Don't you wish that you could see
How high I've flown when I'm alone
Don't you wish that you could be
Up here with me, too bad, you see
I'm moving on and moving up
I'm over you

I'm over you

I'm over you.
