With anarchy and f.t.w. tattooed on their arm's  
Bobby and susie are eating their lucky charms  
Bobby addicted to hell  
Susie you stink  
They act like they are from society

But we know they are the victims  
If your not punk rock your a fool  
That's what they believe  
The victims of society

Stab you in the back  
That's just what they'll do  
Two faced followers  
That's what i call you  
Acting like you don't care  
What everyone thinks  
Part of the crowd still not free  
From society
