"False Start"

Visit "[False Start](#)" on MotoLyrics.com

I could drive by in your overtime
We'll play around 'till the summer-time busted
Here's your white lie here's your alibi
We'll stick together 'till a better one comes along

You were wrong
You were wrong
It's just another false start you're gone
Move along
Move along
I'm not your medicine

I was insane from the airplane
I was feeling like a product placement
You could harmonize I was energized
Let's stick together 'till another one comes along

You were wrong
You were wrong
It's just another false start you're gone
Move along
Move along
I'm not your medicine
