"Go"

On the first day
I set the scene on a magazine
And now I hurt someone
In the next scene
I cracked the code of the episode
And now I'm having fun

In a house
In the mountains
There's a way to fall asleep
And I know when I find it
I will let this go

I can still feel my hope twitch
Crushed by the force of chromosomes
It's a trail map to a bear trap
Separating poor torn camouflage

Under house
Under water
Lay your wing-clipped history
And I know
When I find it
I will let this go
