"Happy People"

Visit "[Happy People](#)" on MotoLyrics.com

I want to see more happy people
I want to see more happy people
Where are all those happy people?
I want to see more happy people

Happy people
Want to see more happy people
I want to see more happy people

Happy people
Want to see more happy people
Where are all those happy people?

Now is the time
To forget all your worries and leave all your problems
behind (2x)
Just to listen those voices and listen to your heart inside
(2x)
I'll never let go and leave you a minute for (2x)

I want to see more happy people
I want to see more happy people
Where are all those happy people?
I want to see more happy people

Happy people
Want to see more happy people
I want to see more happy people

Happy people
Want to see more happy people
Where are all those happy people?
