"Perfect Love"

Visit "[Perfect Love](#)" on MotoLyrics.com

Had a dream about the perfect love
Something holy coming from above
I had a dream about the perfect love
Shine so bright, must be right
And on the science something no one has
Except the holy love
That at last gonna find us
That at last is gonna find us, I found you

I know I have a lot of love to give
No kidding just the way I like to live
And this dream about this perfect love
I give a new side, fill me up
It's all about power all around us
And time is running we don't need to wait
Klick klock, klick klock
But I believe in you, yes I do

Ha Ha Ha Ha
I believe in love
Ha Ha Ha Ha
I believe in you

But I believe in love
I believe in you

I give you my heart.
