First  
I bit you and spit you out  
When there was a doubt  
Now  
I'm calling you when I can  
What is a man?

I did it my way  
I did it my way  
I did it my way on the highway highway

Be yourself  
By yourself  
Get yourself a little green pasture  
Keep yourself  
To yourself  
Save yourself  
Sure you will sure you will sure

Give take  
Crowd control  
Can get in my way when I'm starting my day  
Teamwork  
Self-control  
Was making me blue so I knew what I had to

Did it my way  
I did it my way  
I did it my way on the highway highway

Be yourself  
By yourself  
Drive yourself a little bit faster  
Keep yourself  
To yourself  
Sure you will sure you will sure
