

Offenbach

"Zombie Nation"

Visit "[Zombie Nation](#)" on MotoLyrics.com

Well the night is nearly over
The day is almost here
And the descending hour
Will make you stand in fear
You sleep walk one by one
Following your destruction
Wake up zombie you're a zombie nation

Wake up zombie nation (4x)

I've seen the way it controls you
I've seen the pain you're in
Just look at your selfishness
With a needle full of sin
No peace of love or happiness
You follow the artificial glow
Believing you're in reality
But little do you know, you need to wake up!

This world is in a coma
The people are asleep
You are in a coma
And you have gone to sleep
For it is light that makes everything visible
This is why it's said
Wake up o' sleeper rise from the dead and
Christ will shine on you
