Ou know IÂ'm sipping on Fiji  
Everyday Geechi, pitching the game like IÂ'm itchy  
People be reaching, always recording  
But ainÂ't nothing decent  
So IÂ'm watching the game  
Plotting know how IÂ'm gonna knock them unconscious  
They lack aspiration, lack motivation  
People be meeting new concepts, new process  
Black T with the anaconda pockets  
Bay vest with the green camouflaging  
Top floor in the suite home lodging  
And itÂ's throwing cheap shots but IÂ'm dodging  
They wanna hold a nigga back, but IÂ'm rising  
Surprising, IÂ'm shining, blowing strong  
Your highness  
And IÂ'm chewing these beasts like a back molar  
I was in the gutter like a bad bawler  
Flow colder, south poler, two two Rolex  
And this white golden

I be on that, I be on that  
Get into the money, I be on that  
I be on that, I be on that  
Stand next to me get a contact  
I be on that, I be on that  
Get into the money, I be on that  
I be on that, I be on that  
Never hate the next man, I be on that

I get into the money I be on that  
If I roll I be the strong pack  
Me and Â... caught Â... nudy  
You laying knickers ainÂ't on that  
Yeah, in it IÂ'm dope, lifting a smoke  
ItÂ's the high gray, my eyes glaze  
And yaÂ'll lay awake  
Name a nigga stuntinÂ' at my age  
The flow colder than ice skate  
ItÂ's getting me weed in MySpace  
Plant life suck RS, I sure love donÂ't see why hate  
And the click is legit, her life is a bitch

So I grind all the time and hope to be rich  
And hope to be living with niggas who realin'  
I got me like I got them OG Jordans got them  
Fuck nigga, I'm not bitter

And I be on that, I be on that  
Get into the money, I be on that  
I be on that, I be on that  
Stand next to me, get a contact  
I be on that, I be on that  
Get into the money, I be on that  
I be on that, I be on that  
Never hate the next man, I be on that
