Look, now money comes and money goes  
But not toward trickin  
Cause I ain't really trying bum these hoes  
Who's idea of reality developin these shows  
Y'all gonn see me blow green, outside a runnin nose  
And like the common hoe, stupid spreadin  
Thanks to massmedia who fuels the engine  
But armed with the mike the truest weapon is venom  
Usese weapon into eleven to gain, all of you detention  
Do it like they used to would have, deeper root the  
message  
And the music reaching out to all of those who infected  
By lack of sense and shape, shit, made a school of  
sexin  
But can't spell from overuse of texting  
It ain't about use protection, it's about use your melon  
If life grant you freedom then don't abuse the blessin  
It's more than the economy, that's going through  
depression  
And recession, recesses, over y'all, school in session

[Hook]

Talk to em, can we find our way  
Lord knows we gotta find a way  
Talk to em, can we find our way  
Lord knows we gotta find a way  
See I don't know much, but since we all stay on this  
earth  
We out just figure we should make it work  
Talk to em, and I'm thinking that today we start  
If everybody could just play their part  
We gonn find the way

Bad music and people who ask me, but I'm making  
money  
The public is fine and the ...hell  
We are the lubricant knowing is whatever for the nobel  
We setting a sad future  
That we wouldn't have make  
If the right people hurt me but they can't relate  
The folks who should give is always lookin to take

So the same problems think alike bush's mistake  
That obama get blamed for, I eat ...  
He pulled the fuckin truths out the shit people play for  
But now he wasn't pass enough, other people like it  
tough  
Talking bout fucking, saying niggas keep blastin em  
So money's tighten, but that's a bigger issues  
When nigga in bigger is all feded with you  
And like a bitter tissue, on a shavin cut  
We gotta stop the bleeding, kill the aching, it's a

Told you that I voted no on prop day  
Would you tell me that my thinkin not straight?  
And if you mad at me, but love it when I'm preachin  
bout humanity  
Your credibility, the lost way  
Oh now you lost weight  
Well I'ma let you process that,  
Now let me gauge where I progress at  
And ...existence, were all statistics in my humble  
opinion  
What's wrong with that  
See we don't see a dude that's a son of a mother  
Somebody brother and love  
We break him down to his race and religion  
And if it happen to be someone we ain't happy to see  
Now that's a likely who we takin to prison  
So get a glimpse, we usin control  
We no longer see your lady is a ...with a beautiful soul  
We gotta change perspective, gain perspective  
Make sense of what we made the senseless, lord knows
