Feels so real, can't see it clear  
Right in the path of this mind  
Anywhere, anytime  
Ability to make you see

We count every single second  
Just waiting for a day  
Where we all wake up, just to fade away  
No use in leaning back and let it head our way  
'cause we'll all wake up, just to fade away

Touch the screen, plug me in  
Just press the key, velocity  
Record my life, design my fear  
That's why I brought you here  
To make me care

We count every single second  
Just waiting for a day  
Where we all wake up, just to fade away  
No use in leaning back and let it head our way  
'cause we'll all wake up, just to fade away  
No use in leaning back and let it head our way  
'cause we'll all wake up, just to fade away

Remove the shades it's not like it seems  
Fatality, go with your dreams  
Hypnotize, interfere..  
That's why I brought you here, to make me care

We count every single second  
Just waiting for a day  
Where we all wake up, just to fade away  
No use in leaning back and let it head our way  
'cause we'll all wake up, just to fade away
