Men, they have always held the power,
But power is a fickle mistress
The nature of power is that it belongs to no one
Until it is taken, seized, seized through sex, violence,
gold

They say sex is a weapon, so when I shoot, meet your
death in less than 8 seconds
Uh, they say sex is a weapon, so when I shoot, meet
your death in less than uh
Sex is a weapon, so when I shoot, meet your death in
less than a second
Sex is a weapon, so when I shoot,
Iâ€™m a sex shooter, I take aim and let it go
A dictator, the best ruler youâ€™ ever know
So dominant that I promise to shake your confidence
Iâ€™ll sponsor you with scholarships, school you or got a
doctorate
Assimilation, a necessity is the mother of invention
But lust is the father of innovation
Uh, they got together, erase a nation
Birth of civilization, first it hurt, then it was amazing

Packing heat and taking aim,
Ainâ€™t no need, you know you gonâ€™ get your way
Popping shit and spitting game
But thereâ€™s no need, you know you gonâ€™ get your
way

Submission is the mission when building and
destroying
My methods they quite suggest that when Iâ€™m
employing the quotas and joy
You canâ€™t avoid this joyous, Iâ€™m such a Å…
The moisture that you deploying is taking us on voyage
Iâ€™m trying to find the spot, but youâ€™re wetter than a
tsunami
Shaping her like she pay bar, twistinâ€™ like origami
Organically grown, never give orgasms to organisms
with X chromosomes
Taking her home, good thing about her,

She don't know her power to eat a clam like it's
chowder
I'm bombing her loads of flower
She can't fake it cause I know the face,
She on top, because she know her place
See, your place ain't the same as your position
Why you racing? It ain't a competition
'Cause you already been declared the winner
Now get up and prepare my dinner

Packing heat and taking aim,
Ain't no need, you know you gon' get your way
Popping shit and spitting game
But there's no need, you know you gon' get your
way

Why you playing me like one to one, oh daddy
You' twistin' my mind,
And I'm a woman, and if there's anything I know,
I know sex is a weaWon
And you can urge it to the strongest degree
Deep down, you never forget her
You can have anything you want
Ain't gotta get all like that boy
You can have it if you want it

Packing heat and taking aim,
Ain't no need, you know you gon' get your way
Pop that shit and spit game
But there's no need, you know you gon' get your
way

Packing heat and taking aim,
Ain't no need, you know you gon' get your way
Pack that shit and spit that game
But there's no need, you know you gon' get your
way

You know you always get your way
