Hello my love,
Hello my dear.
Did you wake up from all of your dreams,
Now your in reality.
I won't carry your guilt anymore(anymore).
You're gonna have to look out for yourself.
Despite the fact that you're torn in two,
I'm not gonna look after you.
Oh dearest,
Listen to me,
Please don't ask me for forgiveness.
Hello my dear,
It's me again,
Are you prepared for the long road ahead,
It really wasn't worth wasting my time(wasting my
time),
But now it will be worth seeing you fall.
Your pain,
Your suffering,
Is eternal x2.
Despite the fact that you're torn in two,
I'm not gonna look after you.
Oh dearest,
Listen to me,
Please don't ask me for forgiveness.
Oh dear,
my dearest.
Your tears won't make it better,
Don't you bleed in front of me.
Please don't ask me for forgiveness x2
Bitch go into your coffin
