late winter
early spring
dead things die
new things live again

i took the steps shown to me
fixed all the parts
i planted the seeds given to me
but all i got was bleeding hearts

i got bleeding hearts
that'll last to late September
bleeding hearts
that i can't help but to remember

bleeding hearts beating hearts
bring a fresh wave of pain
bleeding hearts beating hearts
every bleeding spring

the only refuge
is the fall
'cause i'll pinch them off
and it won't hurt at all

but just after winter
there's that season again
and all that season brings
is shooting pain

i have bleeding hearts
that'll last to late September
bleeding hearts
i can't help but to remember

bleeding hearts bleeding hearts
bring a fresh wave of pain
bleeding hearts beating hears
every bleeding spring
