Do you know when breathing was hard  
Fell like choked but still in survival  
Healed only by the sensation that I will never retry  
Hunted by the foolish ones  
Hopeless eyes who confused the prey with their  
nightmare  
Crave for power, you invade my hands

You believe people who deceive you  
Now you will lose the faith  
From now until the end of all days  
I'll make sure of your abjuration  
Chaining your bias at the stake  
Sorting thoughts like grazing sheep

Because we don't forget Centuries of no respect

Strike Up!!!

Times of no respect that I want beat  
You consume my soul close down in my shell  
Dime does not deserve for your crap  
And you became what you hated most  
Crime for yourself feed this plague  
Of 10.000 traps contracting your guts  
Fake sick thief you will see  
How we cares of your will  
Throw your will  
Throw your will

RIT:

Trust your false belief, WE DON'T CARE  
Just staring at you (x2)

Invisible anger growing inside is making me quite  
cranky  
You cannot stop this chain reaction, sooner or later  
I'll explode

Imagination figment  
Shield of leaves limp  
Will not help you

To hide brutal reality

As an eagle looking far, as a soldier to the charge  
Training has major to enforce your shield  
But now your will has dried up

Clashing is hard when your broken shell

RIT:

Trust your false belief, WE DON'T CARE  
Just staring at you (x3)
