Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
winters on its way again,
summers almost out,
treasure precious memories,
we cannot live without,
so stomp your feet,
and raise your hands,
embrace the world,
with all you can,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year.

its a new year,
its a new day,
here we go,
rain TO THE SUN TO THE ICE TO THE WHITE SNOW,
got a feeling its the time to let the past go,
we're gonna shine so bright,
let your light glow,
ive come a long way,
now im heading up,
ive made the bass and the beat now i turn it up,
from the small stage,
to the big show,
wont be long until you hear me on the radio

Little friend,

do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,

i got 3 cheers for the,
new year,
have a,
good time,
tonight,
it feels right with ya,
by my side,
and we can dance right here,
all night

so stomp your feet,
and raise your hands,
embrace the world,
with all you can,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year,
Little friend,
do not fear,
we can do it all again next year.
