On a mission started by my own admission
By direction I'll create my own protection

I will leave you all behind
Aspirations turn to fear and desperation
The real me you'll never find
Nothing's ever good enough for you
Burn in sorrow 'cause I see there's no tomorrow

You'll only see what I want you to
Never gonna find me
Way down deep inside there is a real me
Never gonna find me
I'm always gonna hide and this is who you'll see
Never gonna find me
Never gonna find me
Way down deep inside they haven't found me yet
I'm always gonna hide and this is who you'll get
On a mission to establish my attrition

You may think that you have won
Your rejection has brought on my introspection
I'll escape I'll only run

Accusations may destroy my motivation
Only I know which me you'll see
I can feel it when you're pushing me

Burn in sorrow 'cause I see there's no tomorrow
Run!
Break away!
Down inside!
I've got to!
Down!
Push it way!

I did not choose this!
What I want to say
I can't afford the throw
I don't really know
Can't make it go away

Try to make it through
Fuck your decision
But I'm burning up now!
I can't feel myself

Never gonna find me
