Starlight shining so bright
Peeking through the curtains to say
Good night said the little one to the right
Sleep tight said the little one
Up so so high
Then the biggest star in sight
Said to me don't let the bed bugs bite ohhh
Sweet child won't you go to sleep tonight
That's what you'd say to me
Don't cry all the lights are gleaming in your eyes
And I would be relieved to see your sweet smile smiling
back at me.
And then I would pray that we would be forever
And I think I'll see you in my dreams
Darling baby please don't cry
Cause it's Lexi's lullaby Ooo oohh
Lexi's lullaby
Sweet child
Won't you go to sleep tonight
