[feat. Kilo Kish & Coco O]

[Verse 1: Kilo Kish]

I see you, I see what I need
Upside down cause it's not how it seems
Intricacies, making believe
Your diary is inside of me
Come fly with me, way down below
And scream silently in the undertows
It's society that makes it hard to sleep
I close my eyes but I still see
The fire

[Hook x2: Syd tha Kyd]

I know that I'll never forget you girl [x3]
Cause I see you in my dreams

[Verse 2: Kilo Kish]

It's hard to tell whether or not I wanna know
I'm thinking all the time and I guess it shows
It's tough for us to go back in time
To the night before everything was fine
When you talked to me and I talked to you
We watched pedophiles on the morning news
And the water dripped from my faucet top
If I collect it all, could we get it back
Please

[Hook x2]

[Bridge x2: Kilo Kish]

Baby, will you forget a-bout me
You're at the front of mind
Sitting behind my eyes all the time

[Hook x2]
