

## Iridium "Gracie"

Visit "[Gracie](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Little Gracie is a model  
Always outside of the bottle  
I wanna take her to the levee  
This emptiness is killing me

My allegiance with the species  
Always gives me the heebie-jeebies  
I'm living a lie, the river has dried,  
But the stream still flows in my mind

She's the one who gets away  
Tries to tell what's safe from sound  
I'm in love by myself,  
With my leg stuck in the ground,  
And it's cold

Gracie dreams of open spaces  
Wouldn't mind a few new faces  
I wanna kiss but she's so heavy  
This emptiness is killing me

She's the one who gets away  
Tries to tell what's safe from sound  
I'm in love by myself,  
With my leg stuck in the ground,  
And it's cold

Come on baby!

She's the one who gets away  
Tries to tell what's safe from sound  
I'm in love by myself,  
With my leg stuck in the ground,  
And it's cold
