Deep inside I seek what's burning  
Should have known all the while what's true  
Went along, to fool myself  
Can't go on, I can't escape it

All along  
Think I'm really new  
It was down in the words I've spoken  
All along  
Still believe in you  
Now believe we are betrayed and broken

Close my eyes from the burning  
All along, all the while it's true  
Take it on, turn your back  
Either way, you can't escape it

All along  
Think I'm really new  
It was down in the words I've spoken  
All along  
Still believe in you  
Now believe we are betrayed and broken

Ohhh ohhh oh oh oh

All along  
Think I'm really new  
It was down in the words I've spoken  
All along  
Still believe in you  
Now believe we are betrayed and broken

All along, I still believe in you
