Oh take me higher all the way to the sun
Down to the wire fightings only begun

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
Oh no way out oh oh

I will persevere, I will resist you here
I will interfere
I'm not the only son, my will will be done
I'm the scent begun

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
Oh no way out
Gonna make it through, gonna make it through
Divide by zero like a wrecking crew
Closing it on you, closing it on you oh
And know it all oh oh

Oh take me higher I'm waiting the sun
I will persevere I will resist you here
I will interfere

It's closing in on you, closing in on you
Run from the fire raining down on you
It's closing in on you, closing in on you
Oh no way out oh oh
Gonna make it through, gonna make it through
Divide by zero like a wrecking crew
Closing it on you, closing it on you
And no way out oh oh
