

## Offspring "Gotta Get Away"

Visit "[Gotta Get Away](#)" on MotoLyrics.com

Yeah he's with me all the time  
Someone around me just a step behind  
It's kinda scary the shape I'm in  
Walls are shakin' and they're closin' in  
Too fast or a bit too slow  
Paranoid people and it's startin' to show  
One guy in the alley I can't shake  
Lookin' over my shoulder is a big mistake

Sitting on the bed  
Or lying wide awake  
There's demons in my head  
And it's more than I can take  
I think I'm on a roll  
But I think it's kinda weak  
Saying all I know is  
I gotta get away from me

Tell you somethin' just ain't right  
My head is all loose but my shoes are tight  
But my friends they all bugged  
Life is like a riddle and I'm really stumped  
There's a reason don't you know  
Proper preoccupation is the way you go  
You're being followed look around  
It's only the shadow creepin' on the ground  
See you in your bed lyin' wide awake  
This dream is in my head and it's more than I can take  
Think I'm on a roll but I think it's gotta wait  
Sayin' all I know is I gotta get away from me  
Gotta get away from me  
Gotta get away from me

See you in your bed lyin' wide awake  
This dream is in my head and it's more than I can take  
Think I'm on a roll but I think it's gotta wait  
Sayin' all I know is I gotta get away from me  
Gotta get away from me  
Gotta get away from me  
Gotta get away from me
