From common things around the house

Let's make hand grenades

Listen up, we'll show you how

ok now take an old beer bottle

fill it up with gasoline

some paint thinner for good measure

and a sprinkle of maganese

now stuff a sock into the top

with a zippo you'll be king

Lets make hand grenades

It's hours of fun in a little jar

Let's make hand grenades

Try one out on your neighbors car
