One, an' two, an' three, an' four
An' one, an' two, an' three, an' four
An' one, an' two, an' three, an' four
An' one, an' two, an' three, an' four

Goodbye my friend, you've messed up again
You're going to prison, you're off to the pen
You've gotten off easy so many times
I guess no one told you how to get a life

The judge wasn't lenient like he was before
You got three to five and a kick out the door
The public defender really did try
Too little, too late, you didn't get a life

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time
Hey, in walla
I'll see you in walla walla
Folsom Prison is the destination

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time
In the scheme of life
We're all just brothers
Rehabilitate with all the others, oh
Well, I'll see ya

That car looked so tempting, so easy to drive
Just like that apartment that you burglarized
You started to run, but didn't get far
'Cause under your arm was a V.C.R.

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time

Hey, in walla
I'll see you in walla walla
Folsom Prison is the destination

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time
In the scheme of life
We're all just brothers
Rehabilitate with all the others, oh
Well, I'll see ya

I'm innocent
I didn't do it
I didn't do nothin' man
This is bullshit
He just gave it to me
It was, it was a present

Ho, ho, not this time my friend
You'll be in lockdown by ten
I'm afraid you can't talk
Your way out of this one son
Now four walls are your
Twenty four hour a day
Constant companions

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time
Hey, in walla
I'll see you in walla walla
Folsom Prison is the destination

Hey, in walla
I'll see you in walla walla
Slap on the wrist?
Well, not this time
In the scheme of life
We're all just brothers
Rehabilitate with all the others, oh
Well, I'll see ya
Well, I'll see ya

Have a nice life
