"Life in a prison cell"

My life so far consists of slop bucket

My friends beat me up and i do not love it

i use ciggarettes for protection instead of a rubber

even though they still beat me up i still am a scrubber!

and we all say life in a prison cell is so much fun! x2

but still i live and i will not diejust because of it!

i don't care just because i shot for Gunnet

love lost truth kills engines rev and my life is such a bore!

don't know don't care even though my wife is a whore
