I said it once or twice
I'm coming down
to show you the way to live with my hand

enemy
I know you are killing me from inside
you can laugh, you can laugh but don't waste my time
you pesemistic, you cannibal

don't believe me, cause I'm already dead
don't believe me, I'll take it to the bitter end
I've been wanting to show you life abundantly
so I'll end this
talk of who I really am, and who I really oughta be

I won't let you fall back down
to the ways that you wanted to escape
my love, take my hand, I'll show you everything
it's not who I am, and who you want to

enemy
I know you are killing me from inside
you can laugh, you can laugh but don't waste my time
you pesemistic, you cannibal

for the sake of failing you , my God still lives
roll with the pack my God
who will make all wrongs right again?
roll with the pack my God
who will make wrongs right again?

I'll show you

grace like you never have seen
grace like you never have seen
I'll show you grace
I'll. Show you.
I'll. Show you grace
