I'm not saying that I know it all
But I know what you're thinking now
No I'm not trying to cover all over you eyes this time
I wanna help you make yourself
I know your heart is better tainted by the pain
But I hope you hear me when I say

I wanna love you
I wanna please you
Oh Baby please don't let me go
I give you forever
Promise me you never take this for granted
And leave me alone
We got a long way ahead
We got a long way ahead
Let it unfold fold fold
Let it unfold fold fold

We don't have to tell the whole damn world
You know they'll try to tear us apart
I can be yours
And you can be my secret babe
What we build in the eyes
You know my heart is better tainted by the pain
But looking in your eyes I'm not afraid

I wanna love you
I wanna need you
Oh Baby please don't let me go
I give you forever
Promise me you never take this for granted
And leave me alone
We got a long way ahead
We got a long way ahead
Let it unfold fold fold
Let it unfold fold fold

Turn down the lights
Take a step at a time
It is what it is
Relax in your eyes

Turn down the lights
Take a step at a time
It is what it is
Relax in your eyes

I wanna love you
I wanna need you
Oh Baby please don't let me go
I give you forever
Promise me you never take this for granted
And leave me alone

I wanna love you
I wanna need you
Oh Baby please don't let me go
I give you forever
Just promise me you never take this for granted
And leave me alone

We got a long way ahead
We got a long way ahead
Let it unfold fold fold
Let it unfold fold fold
