Cato play with my head
I won't know the difference
If we're living in the novelist
Or substitution
Oh-oh-oh
Cato mess with my concepts,
My inner vision
Like a strobing light
Please confuse my every decision

I can't even pretend
That you are my friend
What has happened to you and i
And don't say that i have changed
Cause man, of course i have
Are you far too depressed now
Even to answer the phone
I guess you just want to
Shave your head
Have a drink
And be left alone-
Is that too much to ask?
