When I met you I was just a kid
Hadn't built up my defenses
So I gave my heart completely
Vaseline over the lenses

Memories don't go away
I remember every day

I never ever stop wonderin'
Wonderin' if you still think of us
I don't need a photograph
'Cause you've never left my mind
No, you've never left my mind

I remember feeling like a ship
Whose captain was too drunk to steer
And you watched as I was sinking
Waving sadly from the pier

Memories don't go away
I remember every day

I never ever stop wonderin'
Wonderin' if you still think of us
I don't need a photograph
'Cause you've never left my mind
No, you've never left my mind

It's such a burden to carry 'round
The vestiges of dead dreams
And I don't want to make a wake out of my life
But just had to let you go
